~~Resolution~~
Reference.

The Sub-Inspector and two peons attached to the Railway Chowkie office situated near the Railway Station at - Hospet request that they may be granted unhealthy locality house rent and kit allowances for the following reasons:--

(a) The Collections at the Chowkie have considerably increased and their work is confined to the malarial zone which extends to two furlongs on either side of the -- irrigation channel within which area the railway station is situated; they have also to attend to the trains by day and night in uniform.

(b) They are compelled to live within the malarial zone in order to ensure the proper performance of their

their duties.

(c) the Railway staff at the Hospet station are granted a climate allowance of 15% of their salary subject to a minimum of Rupee one and

(d) the impossibility of securing houses at reasonable rents to suit the work of the Chowkie office. The local officers -- support the request of the Chowkie staff. The District Medical officer, Bellary was consulted about the nature of the locality in question. He reports that the area on either side of the irrigation channel near the Hospet Railway station is really unhealthy on account of the high incidence of malaria

A

3. The Commissioner has gone into the question carefully and considers that the grant of an unhealthy locality allowance will give relief to the Chowkie staff. He accordingly recommends that Government may be pleased to sanction with reference to items 4 and 9 under rule 12 on page 4 of the Madras Manual of Special pay and allowances, an unhealthy locality allowance of Rs.25/ per mensem to the Sub-Inspector and Rs.2/ per mensem to each of the two pens employed in the Hospet Railway Chowkie.

Allowance (unhealthy locality) grant - Hospet Railway Chowkie Staff-

From the Commr of Excise CR. No. 783 ABR d. 3-7-28.

The Commr of Excise is requested to ascertain from the and report to the Govt. Collr of Bellary whether he considers that the place where the Railway Chowkie office at Hospet is situated should be classed as an unhealthy locality, and, if so, the Collr's reasons therefor.

2. The Commr. is also requested to report whether it is essential that the sub-inspector and his peons should live within 2 furlongs of the irrigation channel.

Resolution
Reference.

The Collector of Bellary was consulted in the matter. He considers that the place where the Railway Chowkie Office at Hospet is situated, should be classed as an unhealthy locality. The reasons adduced by him are,

1) that the locality in the vicinity of the Hospet Railway Station is very unhealthy and forms part of the malarial zone of Hospet town.

2) the station is surrounded on all sides by wet cultivation.

Please see also the D.H.O's opinion at A on p 2 supra
CN

2. It is desirable that the Sub-Inspector and his peons should live within two furlongs of the irrigation channel near the Hospet Railway Station in order to ensure

tr.

the proper performance of their duties. In any case they have to attend to trains which pass through at night and are thus constantly exposed to infection.

In his reference the Commr of Excise recommends the grant of unhealthy localities allowances to the Sub Inspector & 2 peons attached to the Railway Chowkie ~~staff~~ office situated near the Hospet Railway Station. Hospet has not been declared an unhealthy locality - please see the list in para. 10 on p. 4 of the Manual of Special Pay & allowances. It is stated that the local officers support the request of the Chowkie Staff. In these circumstances it is submitted that the Commr's recommendation may be supported in this dept & the file passed on to Finance for consideration.

... Many of the arguments given in the current file have no connection with the unhealthiness of the place.

If it is unavoidable that the new sheds should be within 1/4 mile (which seems unlikely) of the Canal, would Rev. please consult the Collr. about the unhealthiness of the place? If he recommends that it shd. be classed as unhealthy, he may give reasons.

The Collector of Bellary has recommended the declaration of the locality as unhealthy for the reasons mentioned on p 7 Cf. The proposal may perhaps be agreed to.

2 If it is only the Railway Quarters at Hospet that should be included. No further information for description is necessary. If it is however the "place where the Railway Quarters Office is situated" that should be declared an unhealthy locality, it seems necessary to call for a clear description of the area

~~A draft order is submitted for approval~~

It is impossible to declare such small areas as are comprised in one Survey number as unhealthy. The proposal of the Commissioner of Excise may therefore be negatived

Rev Dept

To see

It is for orders whether this Dept will accept Govt's suggestion above to negative the Commr's proposal Ifso the draft below is for approval.

This decision if accepted would be based not on the merits of the case but on the fact, as I understand it, that the declaration of a very small area as an "unhealthy locality" would be without precedent and even ridiculous. It may be without precedent but if there are facts to support the declaration there can be no ground for regarding such a declaration as ridiculous. In favour of the declaration are the clearly

25

expressed opinions of the Collector and the D.M.O. and the fact that the Railway Administration has found it necessary to grant a special allowance to those employees who, under exactly similar conditions, do duty at the Hospet Railway Station.

For these reasons I should be in favour of accepting the Commissioner's recommendation. The area to be included might be described as "The area comprised in survey No.296 of Mudlapuram village, Hospet taluk, Bellary District".
